# Noel **Fischer**

Redacted, 8050 Zürich | 24.08.2002 | Swiss citizen | +41 76 392 10 33 |
noelfischer@gmx.ch | noel-fischer | noelfischer

*Computer science student in his final semester with a bachelor's thesis in computer vision and generative AI. Joined Adnovum AG in 2018, progressing from apprentice to part-time application developer, with a focus on software engineering, agile working and international experience gained during a semester abroad in Japan.*

## Education

09.2022 - 06.2026

**Bachelor of Science in Computer Science**
ZHAW School of Engineering
- International Profile, Entrepreneurial Profile, ZHAW Innovation Challenge 1.0 Winner
- Bachelor Thesis «Sketch-AI» supervised by Thilo Stadelmann

09.2025 - 01.2026

**Study Abroad Semester**
Shibaura Institute of Technology

08.2018 - 08.2022

**Apprenticeship as Computer Scientist with Technical Vocational Baccalaureate**
Vocational School Winterthur
- Specialization in Application Development

## Professional Experience

08.2022 - Present

**Application Developer (Part-time, 50%)**
Adnovum AG
- Collaboration in a Scrum and SAFe-based team on a large IT project
- Creating and managing features for databases, server-critical applications, websites and the integration and communication of these various components

Java | Angular | TypeScript | SQL | CI/CD

08.2018 - 08.2022

**Apprenticeship as Computer Scientist**
Adnovum AG
- Planning, providing and supervising trial days
- Agile work in a team on a fullstack application in the Identity Management area

## Projects

**Bachelor Thesis SketchAI**
AI-based interpretation of technical drawings

- Development of a deep learning model for AI-supported interpretation of standardized technical drawings
- literature research, dataset definition, implementation, evaluation and training on HPC infrastructure

**AI Legal Document Platform**
Legatiq (ZHAW × Walder Wyss)

- Built an AI legal assistant supporting document upload, semantic search (RAG), and automated summarization using LangChain, LangGraph, and Azure OpenAI
- Implemented scalable document processing with PostgreSQL, Qdrant vector search, and containerized services, enabling semantic retrieval and AI-generated answers from legal PDFs

**Personal Project**
soundvisualiser.com

- Development of a real-time audio analysis app with React, p5.js and Firebase. Successfully scaled to 2,000+ monthly users
- Implementation of the Web Audio API for performant visualization of frequency data

## IT Skills

| | |
|---|---|
| **Programming Languages** | Python \| Java \| JavaScript/TypeScript |
| **Software Development** | SDLC \| Agile/Scrum methodologies \| Git \| Version Control |
| **Machine Learning / AI** | TensorFlow \| PyTorch \| Keras \| LangChain \| RAG |
| **Cloud** | Docker \| Kubernetes \| CI/CD pipelines \| AWS \| Azure |
| **Web** | HTML5/CSS3 \| Tailwind CSS \| React \| Next.js \| Angular |
| **Data & Databases** | SQL \| PostgreSQL \| MongoDB |
| **Backend** | Node.js \| FastAPI \| Spring Boot \| REST APIs |

## IT Certificates

**Leading SAFe Certification**, Scaled Agile, Inc.
**AWS Technical Certification**, Amazon Web Services

## Language Skills

| | | |
|---|---|---|
| **German** | ●●●●● | Native |
| **English** | ●●●●● | Fluent, TOEFL iBT: 112/120 (C1 Advanced, 2025) |
| **French** | ●●○○○ | Basic knowledge |

## Leisure Activities and Interests

In my free time, I really enjoy taking the train to go hiking in nature or exploring nearby cities. I challenge myself athletically with parkour and calisthenics. I also like to apply my passion for IT in private coding projects.
